OBJECTIVES FOR EQUAL EDUCATIONAL OPPORTUNITIES FOR STUDENTS

This section of the board policy manual is devoted to the board's goals and objectives for assisting the students of the school district in obtaining an education. Each student shall have an opportunity to obtain an education in compliance with the policies in this series. It is the goal of the board to develop a healthy social, intellectual, emotional, and physical self-concept in the students enrolled in the school district. Each student attending school will have the opportunity to use it and its education program and services as a means for self-improvement and individual growth. In so doing, the students are expected to conduct themselves in a manner that assures each student the same opportunity.

The board supports the delivery of the education program and services to students free of discrimination on the basis of race, color, sex, marital status, national origin, religion or disability. This concept of equal educational opportunity serves as a guide for the board and employees in making decisions relating to school district facilities, employment, selection of educational materials, equipment, curriculum, and regulations affecting students.

Board policies, rules and regulations affect students while they are on school district property or on property within the jurisdiction of the school district; while on school owned, operated, or chartered transportation; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and educational processes of the school district.

This section of the board policy refers to the term "parents" in many of the policies. The term parents for purposes of this policy manual shall mean the legal parents. It shall also mean the legal guardian or custodian of a student and students who have reached the age of majority or are otherwise considered an adult by law.

Inquiries by students regarding compliance with equal educational opportunity laws and policies, including but not limited to complaints of discrimination, shall be directed to the superintendent or his or her designee.

Inquiries may also be directed in writing to the Director of the Region VII office of Civil Rights, U.S. Department of Education, 10220 N. Executive Hills Blvd., 8th Floor, Kansas City, Mo. 64153-1367, (816) 891-8156 or Nebraska Department of Education, 301 Centennial Mall South, Lincoln, NE. (402) 471-2444. This inquiry or complaint to the federal or state office may be done instead of, or in addition to, an inquiry or complaint at the local level.

Further information and copies of the procedures for filing a complaint are available in the school district's central administrative office and the administrative office in each attendance center.

RESIDENT STUDENTS

Children who are residents of the school district community will attend the school district without paying tuition. Students whose residency in the district ceases during a school year may continue attending school for the remainder of the school year without payment of tuition.

The residence of a student means the place, abode, or dwelling of the student. Generally, the legal dwelling of minors is the same as their parents. However, a student may establish a dwelling with someone other than the parents and attend public school in the school district without paying tuition if the primary purpose for residing in the school district is not for the purpose of obtaining a free public education.

Each case involving the determination of residence of a student will be decided upon its individual merits by the school board. Payment of tuition will not be required in cases where the student would otherwise be denied free common school privileges. The burden of proof as to legal residence shall rest with the person claiming legal residence in the district.

NONRESIDENT STUDENTS

Students who are eligible to attend a Nebraska public school but who are not legal residents of the school district may be admitted into the school district in accordance with the enrollment option program authorized by state statutes. Enrollment option students shall be accepted without charge.

Application for use of the enrollment option shall be made between September 1 and March 15 for enrollment during the following and subsequent school years. Written notification of approval or rejection of the application will be made before April 1. Upon agreement of the school boards of the resident school district and the option school district, deadlines for application and approval of the option may be waived.

The board shall annually adopt a resolution on or before April 1 setting forth its specific standards for acceptance and rejection of applications as an option school. Standards will conform to those set forth by state statute. These may include the capacity of a program, class, grade level, or school building or the availability of appropriate special education programs operated by the district. The standards shall not include previous academic achievement, athletic or other extracurricular ability, disabilities, proficiency in the English language, or previous disciplinary proceedings.

Nonresident students may also be admitted under a contract with the student's resident district at the discretion of the superintendent upon application and payment of tuition as stated in the contract. The tuition rate shall be the current per-pupil cost of the school district as computed by the superintendent.

Students whose residency in the district ceases during a school year may continue attending school for the remainder of the school year without payment of tuition.

OPTION ENROLLMENT

Option students shall be accepted into a given grade level, class, class section, program, or attendance center when:

1. The enrollment of the student can be accommodated within: the available physical capacity for the respective grade level, class section, program, or attendance center; the physical space limitation related to the classroom or learning area; the number of seats or learning stations available to students; and instructional methodology that may dictate enrollment limitation, as determined by the District OR-1 administration.
2. Enrollment can be accommodated within the operating costs of the school district, with considerations including but not limited to hiring additional staff, purchasing additional equipment, supplies or instructional materials, specialized equipment or materials, and the overall cost effectiveness due to increased enrollment, as determined by the District OR-1 administration.
3. An appropriate special education program can be provided through existing district owned special education services, as determined by the District OR-1 administration.

Deadlines for application, approval, and/or rejection for the Option Enrollment Program will be waived if the participating districts agree to do so.

Option students shall have the same entitlements, duties, responsibilities, and rights as all students attending District OR-1, except as otherwise provided in policy, rules, or regulations of the District.

Option students shall be subject to the same penalties of exclusion, suspension, expulsion or mandatory reassignment for failure to follow such rules of student conduct.

Eligibility for athletic competition will be governed by state statute and/or rules and regulations of the NSAA.

District OR-1 shall accept credits toward graduation which have been awarded by another school district of Nebraska and shall award a diploma to an option student upon the respective student's completion of District OR-1 graduation requirements.

The administrative personnel for the respective grade level shall retain the authority to determine the attendance center and classroom to which an option student will be assigned.

Parents or legal guardian of option students shall be responsible for the participating student's transportation needs to and from the respective attendance center. Therefore, District OR-1 shall not provide transportation to any resident student, including handicapped students, electing to option out of District OR-1 except as may otherwise be required by law.

Additionally, District OR-1 shall not provide transportation to any option student including handicapped students, electing to option into District OR-1 except as may otherwise be required by law. Option students may, however, be provided transportation without an assessed fee provided that option students riding the bus are picked up or dropped off at a point on a regularly scheduled route and the route bus has room for the students.

ENTRANCE - ADMISSIONS

Children in the school district community will be allowed to enroll in the school district's regular education program beginning at age five. The child must be age five on or prior to October 15 to participate in the school district's kindergarten program or beginner grade, or be admitted under exceptions provided by state statute.

The board shall require evidence of age and residency in the form of a birth certificate or other evidence before the student may enroll in the school district's education program. It shall be within the discretion of the superintendent to determine what is satisfactory evidence for proof of age.

Prior to enrollment, the child must provide the administration with proof of a physical examination and immunizations as required by law and the respective policies of this district. Failure to provide this information shall be reason for denying admission to the student.

The parent/guardian of any child younger than seven years of age who is enrolled may discontinue that enrollment according to procedures provided by the district.

ATTENDANCE CENTER ASSIGNMENT

The board shall have complete discretion to determine the boundaries for each attendance center, to assign students to the attendance centers, and to assign students to the classrooms within the attendance center.

It shall be the responsibility of the superintendent to make recommendations to the board regarding the division of students among attendance centers. In making the recommendations, the superintendent shall consider the geographical layout of the school district, the condition and location of the school district facilities, the location of student population, possible transportation difficulties, financial condition of the school district and other factors deemed relevant by the superintendent or the board.

STUDENT TRANSFERS OUT OR WITHDRAWALS

If the student's parents wish to withdraw or transfer the student from school prior to completing and graduating from the education program, they shall notify the respective principal as soon as possible of the decision to withdraw or transfer the student from the education program. The student or parent should present this written notice at the office and receive instructions regarding the return of textbooks, library books, locker equipment, hot lunch tickets and completion of grade records.

The notice shall state the student's final day of attendance. If the student is not enrolling in another school district, the school district shall maintain the student's records in the same manner as the records of students who have graduated from the school district.

If the parents wish to have the student's cumulative record sent to the new school district, the parents shall notify the principal in writing. This notice shall include the name of the school district and the person at the new school district to whom the student's cumulative records should be sent. If the new school district requests the student's cumulative records, the school district will forward the cumulative records and notify the parents the records have been sent.

Withdrawal and Transfer Procedure

The procedure for withdrawal or transferring is as follows:

1. Secure authorization withdrawal or transfer note from the parent or guardian.
2. Obtain appropriate forms from the guidance office or principal's office.
3. Have the forms filled out by teacher, return all school books and property, and make sure all fees are paid.
4. Take completed forms to the guidance or principal's office for final clearance.

STUDENT RE-ENTRY TO SCHOOL

EXCHANGE AND FOREIGN STUDENT ADMISSIONS

Foreign exchange students must reside in the district or must apply for enrollment under provisions of the enrollment option statutes.

No foreign exchange student will be enrolled in the district until the foreign exchange student has provided the district with all records and information requested by the district. Foreign exchange students must also comply with any health requirements imposed by state or other governing laws and according to district policies.

Foreign exchange students must not have graduated from high school (or an equivalent educational institution) prior to enrollment in the district.

Foreign exchange students completing the twelfth grade in the district must successfully complete district graduation requirements in order to be awarded a diploma from District OR-1.

ALTERNATIVE SCHOOL ADMISSIONS

The Board of Education endorses the neighborhood school concept and makes many decisions based on student population within the attendance areas of residence. The Board recognizes, however, that resident students may wish to attend an alternative school.

In implementing the alternative enrollment program, the district is not required to:

1. Make alterations in the structure of a requested school or make alterations to the arrangement or function of rooms within a requested school;
2. Establish and offer any particular program in a school if such program is not offered currently in such school;
3. Alter or waive any established eligibility criteria for participation in a particular program including age requirements, course prerequisites and required levels of performance.

Notwithstanding the provisions of this policy, a student may be assigned outside the attendance area by mutual agreement of the principals in the special interest of the student and/or school.

Students may apply for alternative enrollment in a school outside their attendance area and such applications shall be approved if there is space available in the requested school.

Students granted permission to attend a school other than the school in their assigned attendance area shall have the same curricular and extracurricular status as all other students attending the school, limited only by rules of the Nebraska School Activities Association.

Transfer students attending a school outside their attendance area shall be granted admission on a year-to-year basis. In the event the population of the attendance area increases to fill the building with attendance areas residents, transfer students may be asked to enroll in another school.

The Board reserves the right to rescind and/or amend any or all alternative enrollments or transfers if in its opinion overcrowding of facilities or other undesirable conditions develops.

Transportation

Transportation for students granted permission to attend school outside their attendance area must be furnished by their parents unless it is determined that transportation is

necessary for the district to comply with state and federal law requirements for homeless or disabled students.

Nondiscrimination

The Board, the superintendent, other administrators and teachers shall not make any distinction on account of race, sex, ethnic group, religion or disability of any student who may be in attendance or who seeks admission to any school maintained by the district in the determination or recommendation of action under this policy.

Special education students

Requests from the parents of special education students for open enrollment or transfer to another school or program shall be considered in accordance with applicable state and federal laws. The student's current Individual Education Plan (IEP) shall be used to determine if the requested school or program can meet the student's needs.

ASSIGNMENT OF NEW STUDENTS TO CLASSES AND GRADE LEVELS

New students entering from schools recognized and approved by the Nebraska Department of Education will initially be placed in grades and classes on the basis of their grade placement/credits in the school from which they are transferring. The district administration, through academic achievement tests and other evaluation measures as necessary, will determine the appropriate grade level/credit status of students transferring from schools that have not been approved by the state department of education.

Previous high school work will be validated for a high school student by successfully completing a higher level unit in this district's high school for every unit completed in a non-accredited high school; i.e., completion of a second unit mathematics would validate the mathematics credit transferred. If no successive course work is pursued to validate the credit, similar or equivalent work will be evaluated at the discretion of the principal.

ASSIGNMENT OF CONTINUING STUDENTS TO CLASS

Pupils will be enrolled in grades and classes in which they can be expected to master established district instructional/learning objectives. All pupils who are included under the compulsory school attendance law must be enrolled and required to attend all classes prescribed by the state and the district Board of Education unless exempt by the school authorities.

Pupils will be assigned to the grade level in elementary and middle schools, or be enrolled in classes recommended by the principal consistent with state guidelines, the recommendations of teachers, through academic achievement tests and other evaluation measures. Ability to meet district grade-subject and course instructional/learning objectives will be a major factor in grade level assignment.

High school students will be classified in certain grades according to the following criteria:

- Freshman (ninth grade student) - A student in his/her first year of a four-year senior high school or a student with sufficient credits to expect graduation* in four years.
- Sophomore (tenth grade student) - A student in the second year of enrollment in a four-year senior high school who has earned sufficient credits to expect graduation* in three years.
- Junior (eleventh grade student) - A student with two or more years of enrollment in a senior high school who has earned sufficient credit to expect graduation* in two years.
- Senior (twelfth grade student) - A student with three or more years of enrollment in a senior high school who has earned sufficient credit to expect graduation* in one year.

* Students may reasonably expect to graduate if they earn the required credits by successfully completing a full schedule of classes. They may not expect graduation or a class promotion if they must gain extra credit from an overload schedule, summer school or correspondence work.

COMPULSORY ATTENDANCE

Any child who will reach six years of age prior to January 1 of the current year and who has not reached eighteen years of age shall meet the requirements of mandatory school attendance. Any such child shall attend the academic program on a regular basis, unless a written request to drop the child from the school rolls is made by the parent, guardian or other person having charge, control or custody of the child.

Any child of mandatory attendance age must by law regularly attend a public, private, denominational, parochial school or a combination of such schools not less than the entire school term of the school(s), which the child attends. This does not apply to a child who has obtained a high school diploma, completed the program of instruction offered by a non-accredited or non-approved school, has reached the age of 18, or who is at least 16 years old and whose parent or guardian has signed a notarized release discontinuing the enrollment of the child.

Excusal from the "full-time" requirement of the compulsory education law can be granted by the superintendent for a child between 14 and 16 years of age having completed the work of the eighth grade when the student has obtained legal employment due to necessity and such a request has been made by a parent/guardian.

Withdrawal To Age 6

The parent/guardian of any child who will not reach six years of age prior to January 1 of the current school year and who is enrolled may discontinue that enrollment according to procedures provided by the district.

STUDENT ABSENCES - EXCUSED

Regular attendance by students is essential for students to obtain the maximum opportunities from the education program. Parents and students alike are encouraged to ensure an absence from school is a necessary absence. Students shall attend school unless excused by the principal of their attendance center.

Student absences approved by the principal shall be excused absences. Excused absences shall count as days in attendance for purposes of the truancy law. These absences include, but are not limited to, illness, family emergencies, recognized religious observances, appointments that cannot be scheduled outside the school day and school-sponsored or approved activities.

Students whose absences are approved shall make up the work missed and receive full credit for the missed school work. It shall be the responsibility of the student to initiate a procedure with the student's teacher to complete the work missed.

Students who wish to participate in school-sponsored activities must attend school for one half day the day of the activity unless permission has been given by the principal for the student to be absent.

It shall be the responsibility of the parent to notify the student's attendance center as soon as the parent knows the student will not be attending school on that day. The principal may request evidence or written verification of the student's reason for absence.

It shall be the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

TRUANCY - UNEXCUSED ABSENCES

Regular attendance by the students at school is essential for students to obtain the maximum opportunities from the education program. Parents and students alike are encouraged to ensure an absence from school is a necessary absence. Students shall attend school unless excused by the principal of their attendance center.

Truancy is the failure to attend school for the minimum number of days established in the school calendar by the board. Truancy is the act of being absent without a reasonable excuse. These absences shall include, but not be limited to, tardiness, shopping, hunting, concerts, preparation or participation in parties and other celebrations and employment.

The superintendent shall designate an attendance officer. The attendance officer will investigate the report of any child who is unlawfully absent from school.

If any student has accumulated a total of five unexcused absences per quarter or the hourly equivalent of five absences, the school shall render all services in its power to compel the student's attendance. These services shall include the following:

1. A meeting or meetings between the attendance officer or designee, the student's parent/guardian and the student to solve the truancy problem.
2. Educational counseling to explore alternative educational programs to solve the truancy problem.
3. Educational evaluation to assist in determining the specific condition(s) contributing to the truancy problem.
4. Investigation of the problem by a school social worker or designee to identify conditions contributing to the truancy problem, meeting(s) with the parent/guardian and referrals to appropriate agencies to remedy the conditions.
5. If the problem continues, the attendance officer shall serve written notice to the parent/guardian warning him/her of the need to comply with the compulsory attendance statute of section 79-201. If the violation continues, within one week a report shall be filed with the county attorney as required by law.

Students are subject to disciplinary action for truancy including suspension and expulsion. It shall be within the discretion of the principal to determine, in light of the circumstances, whether a student may make up work missed because of truancy.

It shall be the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy. The administrative regulations shall indicate the disciplinary action to be taken for truancy.

Students will be allowed to leave the school district facilities during school hours only with prior authorization from their parents, unless the parent appears personally at the student's attendance center to arrange for the release of the student during school hours, or with the permission of the principal.

Approved reasons for release of a student during the school day shall include, but not be limited to, illness, family emergencies, medical appointments, religious instruction, classes outside the student's attendance center, employment for which the student has been issued a work permit and other reasons determined appropriate by the principal.

It shall be the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

STUDENTS OF LEGAL AGE

Students who have attained legal age (19) may continue the education program without payment of tuition as long as they have not graduated from high school, are eligible to attend a Nebraska public school and are residents of the school district.

Parents will be allowed to access and view the student's records without written permission from the student if the student is still a dependent for tax purposes. The board encourages pregnant students to continue to attend the education program as long as they are physically able to do so. The pregnant student may notify the principal or the guidance counselor as soon as she is aware of the pregnancy. The school may require that a pregnant student provide the principal with a written note from her doctor relative to special conditions that might exist and specific suggestions as to how long the student may continue to attend classes. If the student is unable to attend school because of her pregnancy, the student may be excused and arrangements made to continue her studies during her absence. Each homeless child shall be provided services for which the child is eligible comparable to services provided to other students in the school selected regardless of residency.

Homeless children shall be provided access to education and other services that such children need to ensure that they have an opportunity to meet the same student performance standards to which all students are held.

If a homeless child registered to attend school in the district is receiving family reconciliation services pursuant to state law, the district will work in cooperation with any county or department of social services in the district to jointly develop an educational program for the child.

STUDENT DUE PROCESS RIGHTS

Student complaints and grievances regarding board policy or administrative regulations and other matters should be addressed to the student's specific teacher, activity sponsor or other certified employee, other than the administration, for resolution of the complaint. It is the goal of the board to resolve student complaints at the lowest organizational level.

All students will be afforded due process as guaranteed by constitutional provisions. Complaints involving student suspension, expulsion or mandatory reassignment will follow provisions of the Student Discipline Act. All other student complaints are to follow the chain of command as outlined in district policies. Rules for student conduct and appeal procedures will also be published in the student handbook.

If the complaint cannot be resolved by a certified employee, the student may discuss the matter with the principal within five days of the employee's decision. If the matter cannot be resolved by the principal, the student may discuss it with the superintendent within five days after speaking with the principal.

If the matter is not satisfactorily resolved by the superintendent, the student may appeal to the board in writing. However, the board will only directly consider appeals dealing with policies, procedures and programs. Any complaints involving employee issues will be passed on to the board's legal counsel to determine whether district policies and procedures were followed by the administrator in attempting to resolve the conflict.

STUDENT INVOLVEMENT IN DECISION MAKING

Students are in a unique position to make positive contributions to the improvement of the educational program and to the operation of a more effective school system.

It is the Board's belief that students, in keeping with their level of maturity, should be encouraged to participate in the development of policies, regulations, and procedures which affect them. Their participation in decision making will be considered part of the educational process.

As appropriate to the age of students, class or school organizations such as student councils may be formed to offer practice in self government and to serve as channels for the expression of student ideas and opinions.

The Board, through the staff, will take into consideration student opinions in establishing policies which directly affect student programs, activities, privileges, and other areas of student sensitivity.

Students will be welcomed at Board meetings and granted privileges of speaking in line with such privileges extended the general public.

STUDENT CONDUCT

The board believes inappropriate student conduct causes serious disruption to the learning environment, interferes with the rights of others, and threatens the health and safety of students, employees and the public. The Superintendent and staff will develop and implement age-appropriate student codes of conduct to facilitate the educational process.

Students shall conduct themselves in a manner fitting to their age level and maturity and with respect and consideration for the rights of others while on school district property or on property within the jurisdiction of the school district. This policy will also apply while on school owned, operated or chartered transportation; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and educational processes of the school district.

Students who violate this policy and the administrative regulations supporting it will be subject to disciplinary measures including, but not limited to, removal from the classroom, detention, suspension, probation and expulsion. The codes of conduct will include measures to prevent or discourage behavior which interferes with the educational program, behavior which disrupts the orderly and efficient operation of the school or the functioning of school activities, behavior which interferes with the maintenance of a learning environment, behavior that is violent or destructive, or behavior which interferes with the rights of other students to pursue their education. Procedures will be available to allow rights of due process for all students.

This disciplinary process is designed to create the expectation that the degree of discipline imposed by the school will be proportionate to the severity of the behavior of the particular student, the previous discipline history of the student and other relevant factors. It will also include parental involvement processes designed to enable parents, guardians, teachers and school administrators to work together to improve and enhance appropriate student behavior and academic performance. All student codes of conduct shall be submitted to the board for approval or review.

The code of conduct will be included in the student handbook, and a parent/guardian will sign and promptly return an acknowledgement of receipt of the handbook which specifically mentions the student code of conduct.

STUDENT CONDUCT ON BUSES

The privilege of riding a school bus is contingent upon a student's good behavior and observance of established regulations for student conduct both at bus stops and onboard buses. Since bus transportation is provided to assist the education program, the board shall require students to conduct themselves on the bus in a manner consistent with established standards for classroom behavior.

The driver of a school bus shall be responsible for safety of the students on the bus, both during the ride and while students are entering or leaving the vehicle. Therefore, it is the bus driver's duty to notify the supervisor of transportation or the principal of the school involved if any student persists in violating the established rules of conduct.

After due warning has been given to the student and to parents/guardians, the principal may withhold from the student the privilege of riding the school bus. In such cases, the parents of the children involved will be responsible for seeing that their children get to and from school safely.

The student may also face detention, suspension or expulsion, in accordance with established policies, for flagrant violation of school bus rider conduct regulations or conduct detrimental to the safe operation of the bus.

STUDENT APPEARANCE

The board believes inappropriate student appearance causes material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees and visitors.

Students are expected to adhere to standards of cleanliness, grooming and dress that are compatible with the requirements of a good learning environment. The standards will be those generally acceptable to the community as appropriate in a school setting.

The board expects students to be clean and well-groomed and wear clothes in good repair and appropriate for the time, place and occasion. Clothing or other apparel promoting products illegal for use by minors and clothing displaying obscene material, profanity, or reference to prohibited conduct are disallowed. While the primary responsibility for appearance lies with the students and their parents, appearance disruptive to the education program will not be tolerated. When, in the judgment of a principal, a student's appearance or mode of dress disrupts the educational process or constitutes a threat to health or safety, the student may be required to make modifications.

It shall be the responsibility of the superintendent, in conjunction with the principals, to develop administrative regulations regarding this policy.

Students may be present during the inspection of their lockers. Student lockers may also be searched in compliance with board policy regulating search and seizure.

WEAPONS

The board believes weapons and other dangerous objects and look-a-likes in school district facilities cause material and substantial disruption to the school environment or present a threat to the health and safety of students, employees and visitors on the school district premises or property within the jurisdiction of the school district.

Weapons and other dangerous objects and look-a-likes shall be taken from students and others who bring them onto the school district property or onto property within the jurisdiction of the school district or from students who are within the control of the school district.

Parents of students found to possess weapons or dangerous objects or look-a-likes on school property shall be notified of the incident. For purposes of this portion of this policy, the term "firearm" includes, but is not limited to, any weapon which is designed to expel a projectile by the action of an explosive, the frame or receiver of any such weapon, a muffler or silencer for such a weapon, or any explosive, incendiary or poison gas.

Weapons under the control of law enforcement officials shall be exempt from this policy. The principal may allow authorized persons to display weapons or other dangerous objects or look-a-likes for educational purposes. Such a display shall also be exempt from this policy. It shall be the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

SECRET SOCIETIES OR GANG ACTIVITIES

The Board of Education prohibits the organization of school-sponsored fraternities, sororities or secret organizations wherein membership is determined by members themselves rather than on the basis of free choice. The Board considers those organizations or memberships in those organizations detrimental to the good conduct and discipline of the school. Interference with the instructional program of the district by those groups will not be condoned, and no organizational activities are permitted under the sponsorship of the school district or its personnel.

In addition, the use of hand signals, graffiti, or the presence of any apparel, jewelry, accessory, or manner of grooming which, by virtue of its color, arrangement, trademark, symbol, or any other attribute which indicates or implies membership or affiliation with such a group, is disruptive of a positive learning environment and will not be tolerated.

The board believes such illegal, unauthorized or contraband materials generally cause material and substantial disruption to the school environment or present a threat to the health and safety of students, employees, or visitors.

Violation of this policy by students will result in disciplinary action including suspension or expulsion. Use, purchase or being in possession of cigarettes, tobacco or tobacco products for those under the age of eighteen, may be reported to the local law enforcement authorities. Possession, use or being under the influence of beer, wine, alcohol and/or of a controlled substance may also be reported to the local law enforcement authorities.

The board believes the substance abuse prevention program shall include:

- A statement to students that the use of illicit drugs and the unlawful possession and use of alcohol is wrong and harmful;
- Standards of conduct for students that clearly prohibit, at a minimum, the unlawful possession, use, being under the influence of or distribution of illicit drugs and alcohol by students on school premises or as part of any of its activities;

SEARCHES, SEIZURES AND ARRESTS

School district property is held in public trust by the board. School district authorities may, without a search warrant, search students or protected student areas based on a reasonable and definable suspicion that a school district policy, rule, regulation or law has been violated.

The search shall be in a manner reasonable in scope to maintain order and discipline in the schools, promote the educational environment, and protect the safety and welfare of students, employees and visitors to the school district facilities. The furnishing of a locker, desk or other facility or space owned by the school and provided as a courtesy to a student, even if the student provides the lock for it, shall not create a protected student area and shall not give rise to an expectation of privacy with respect to the locker, desk, or other facility.

School authorities may seize any illegal, unauthorized or contraband materials discovered in the search. Items of contraband may include, but are not limited to, nonprescription controlled substances, marijuana, cocaine, amphetamines, barbiturates, apparatus used for controlled substances, alcoholic beverages, tobacco, weapons, explosives, poisons and stolen property. Such items are not to be possessed by a student while they are on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated transportation; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district.

Possession of such items will be grounds for disciplinary action including suspension or expulsion and may be reported to local law enforcement officials. The board believes that illegal, unauthorized or contraband materials may cause material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees, or visitors on the school district premises or property within the jurisdiction of the school district.

The superintendent or building principals may release minor students into the custody of a law enforcement officer upon presentation of a court order or warrant for the student's arrest, or to remove a student from school premises if the officer or school administrator has reason to believe that the student has violated the law.

The principal or designee will immediately attempt to notify the parent/guardian or responsible relative of the student's release and the place to which the student is reportedly taken, except in cases of child abuse.

It shall be the responsibility of the superintendent, in conjunction with the administrative team, to develop administrative regulations regarding this policy.

QUESTIONING OF STUDENTS BY OUTSIDE AGENCIES

Generally, students may not be interviewed during the school day by persons other than parents and school district officials and employees.

Requests from law enforcement officers and from persons other than parents, school district officials, and employees to interview students shall be made through the principal's office. Upon receiving a request, it shall be the responsibility of the principal to determine whether the request will be granted. Generally, prior to granting a request, the principal shall attempt to contact the parents to inform them of the request and to ask them to be present.

If a child abuse investigator wishes to interview a student, the principal will defer to the investigator's judgment as to whether the student should be interviewed independently from the student's parents, whether the school is the most appropriate setting for the interview, and who will be present during the interview.

Students will not be taken from school without the consent of the principal and without proper warrant when applicable.

Harassment is a violation of school district policies, rules and regulations and, in some cases, may also be a violation of criminal or other laws. The school district has the authority to report students violating this rule to law enforcement officials.

Students or individuals who feel that they have been harassed by other students should:

- Communicate to the harasser that the individual expects the behavior to stop, if the individual is comfortable doing so. If the individual needs assistance communicating with the harasser, he/she should ask a teacher, counselor or principal to help.
- If the harassment does not stop, or the individual does not feel comfortable confronting the harasser, he/she should:
 - tell a teacher, counselor or principal; and
 - write down exactly what happened, keep a copy and give another copy to the teacher, counselor or principal including:
 - ✓ what, when and where it happened;
 - ✓ who was involved;
 - ✓ exactly what was said or what the harasser did;
 - ✓ witnesses to the harassment;
 - ✓ what the individual said or did, either at the time or later;
 - ✓ how the individual felt; and
 - ✓ how the harasser responded.

Complaint Procedure

An individual who believes he/she has been harassed shall notify the Principal, the designated investigator. The alternate investigator is guidance counselor. The investigator may request that the individual complete the Harassment Complaint form and turn over evidence of the harassment, including, but not limited to, letters, tapes, or pictures. Information received during the investigation shall be kept confidential to the extent possible.

The investigator, with the approval of the superintendent, or the superintendent has the authority to initiate a harassment investigation in the absence of a written complaint.

Investigation Procedure

The investigator shall reasonably and promptly commence the investigation upon receipt of the complaint. The investigator shall interview the complainant and the alleged harasser. The alleged harasser may file a written statement refuting or explaining the

behavior outlined in the complaint. The investigator may also interview witnesses as deemed appropriate.

Upon completion of the investigation, the investigator shall make written findings and conclusions as to each allegation of harassment and report the findings and conclusions to the principal. The investigator will outline the findings of the investigation to the principal.

Resolution of the Complaint

Following receipt of the investigator's report, the principal may investigate further, if deemed necessary, and make a determination of the appropriate next step which may include discipline, up to and including, suspension and expulsion.

Prior to the determination of the appropriate remedial action, the principal may, at the principal's discretion, interview the complainant and the alleged harasser. The principal shall file a written report closing the case and documenting any disciplinary action taken or any other action taken in response to the complaint. The complainant, the alleged harasser and the investigator shall receive notice as to the conclusion of the investigation.

Points to Remember in the Investigation

- Evidence uncovered in the investigation is confidential.
- Complaints must be taken seriously and investigated.
- No retaliation will be taken against individuals involved in the investigation process.
- Retaliators will be disciplined up to and including suspension and expulsion.

Conflicts

If the investigator is a witness to the incident, an alternate investigator shall be the investigator.

STUDENT FEE WAIVER PROCEDURES

The board recognizes that while certain fees, specialized equipment, or specialized attire are appropriate and authorized, some students and their families are not financially able to afford them. The school district will grant waivers upon request to the students of families eligible for free or reduced priced meals under the federal Child Nutrition program.

Waivers must be requested prior to the first scheduled fall activity. Waivers will not be approved retroactively for fees previously paid or specialized items, or attire purchased by students. Only those fees and items eligible for waivers as required by state statute shall be waived.

Parents or students eligible for waivers shall make an application on the form provided by the school district. Applications may be made at any time but must be renewed annually. Denial of a waiver may be appealed to the superintendent, but eligibility is strictly dependent upon meeting financial guidelines established by the Child Nutrition program.

The school district will treat the application and waiver process as any other student record and student confidentiality and access provisions will be followed.

The school district will annually notify parents and students of the waiver. The student fee policy and guidelines will be published annually in the Student Handbook.

STUDENT FEE ASSESSMENTS

The following fees, charges or fines will be assessed during the school year for students involved in the activities described.

Students may apply for waivers of some fees under district waiver guidelines. The student fee policy and guidelines will be published annually in the Student Handbook.

BULLYING PREVENTION

The board recognizes the negative impact that bullying has on student health, welfare, safety, and the school's learning environment and prohibits such behavior. Bullying is defined as any ongoing pattern of physical, verbal, or electronic abuse on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose by a school employee or his or her designee, or at school sponsored activities or school-sponsored athletic events.

Bullying may constitute grounds for long-term suspension, expulsion or mandatory reassignment, subject to state and federal statutes and the district's student discipline and due process procedures.

It shall be the responsibility of the superintendent to implement appropriate programs or procedures for the purpose of educating students regarding bullying prevention.

This policy shall be reviewed annually.

DETENTION OF STUDENTS

The provisions of detention or an in-school suspension program for student violations of policies, rules and procedures shall provide principals with an additional alternative for dealing with disciplinary problems that occur in the schools. When this alternative is appropriate, students will be assigned to serve a specified time period in the in-school suspension program. These assignments, and the determination of the time period for them, shall be determined by the principal, or his or her designee.

SUSPENSION OF STUDENTS

The authority to suspend for a "short term" and to propose a "long term" suspension and/or expulsion is delegated to the principal or his or her designee. A short-term suspension shall mean the exclusion of a student from school attendance for a period not to exceed five school days. A long-term suspension means the exclusion of a student from school attendance for a period exceeding five school days but less than twenty school days.

The provisions of this section apply to all pupils enrolled in the school district. When considering possible courses of action for special education students in regard to alleged violations of school rules, policies, and regulations, procedural due process rights guaranteed under applicable Federal and State statutes are applicable. The school district is obligated to see that every special education student is provided an appropriate educational program without cost to the parent. Conversely, schools are not required to maintain pupils who are a danger to themselves or others in regular attendance centers.

Suspension from classes or school will not be carried out unless the student while subject to school authority:

1. uses violence, force, threat or intimidation in a manner causing substantial interference with school purposes; or
2. causes or attempts to cause substantial damage to school or private property or steals or attempts to steal school or private property of substantial value; or
3. causes or attempts to cause physical injury to another person except in self-defense; or threatens or intimidates any student for the purpose or intent of obtaining something of value from the student; or
4. possesses or transmits any firearm, knife, explosive or other dangerous object that is ordinarily considered a weapon; or
5. without medical sanction where prescription substances are in question, possesses, uses, transmits, or is under the influence of any narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana, alcoholic beverages, or any other controlled substance; or
6. commits public indecency as defined in Nebraska statute 28-806 if that student is at least twelve years of age but less than nineteen years of age; or
7. commits or attempts to commit sexual assault against any person if a complaint has been filed by a prosecutor alleging the incident as required in Nebraska statute 79-267.8; or
8. engages in any other illegal activity which constitutes a danger to other students or interferes with school purposes; or
9. repeatedly violates the policies, rules and standards of student conduct established by the district.

A given short term suspension will be for a period of time not to exceed 5 school days. A student will be informed of the charges against him or her and, if the student denies them,

an explanation of the evidence will be given and the student will be given an opportunity to refute the charges. No time delay is necessary between the time a pupil is notified of the charges and the time of the hearing before the principal.

Guidelines to insure that students are afforded due process during a suspension or proposed suspension from school will be developed. The procedural rules, regulations and guidelines will be approved by the Board of Education and made known to students, parents and school staff.

Administrative procedures complying with the Student Discipline Act shall also be in place to ensure due process to the student should the principal decide to administer a long-term suspension, expulsion, or mandatory reassignment.

If a student's presence poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, an emergency exclusion may be invoked and the student may be immediately removed from school. However, notice and hearing should follow as soon as practical and not more than ten days following the initial exclusion.

The principal should make a reasonable effort to contact the parent(s) or guardian(s) of a suspended student by telephone or to communicate to them directly regarding the specific act(s) for which the suspension is ordered and the length of the suspension. If personal contact cannot be made then a notice will be mailed to parents within 24 hours stating the specific act(s) for which the suspension is ordered and the length of the suspension.

All records and documentation regarding suspension will be destroyed within three years of the student's continuous absence from school. No information regarding a suspension will be communicated to any person not directly involved in the disciplinary proceedings.

The right of appeal to the Board of Education in cases involving student suspension described in this policy does not extend to a suspension from a student extracurricular activities program or other disciplinary action affecting participation in an extracurricular activities program.

EXPULSION OF STUDENTS

For the purposes of this policy and as defined in the Student Discipline Act, expulsion shall mean exclusion from attendance in all schools within the district for a period of time as defined in Nebraska statute 79-283.

Students may be expelled for violations of board policy, school rules or the law. It shall be within the discretion of the board to discipline a student by using an expulsion for a single offense or for a series of offenses depending on the nature of the offense and the circumstances surrounding the offense.

The superintendent will develop procedural rules, regulations and guidelines governing expulsions. These shall be approved by the Board of Education and made known to students, parents and school staff.

All cases of expulsion shall be preceded by short-term suspension and its related procedures or by the condition of emergency exclusion which applies only when a student (a) has a dangerous communicable disease transmissible through normal school contacts and poses an immediate threat to the health and safety of the school community; or (b) exhibits conduct which presents a clear threat to the physical safety of himself/herself or others, or is so extremely disruptive as to make temporary removal necessary to preserve the rights of other students to pursue an education.

It shall be within the discretion of the superintendent to recommend to the board the expulsion of a student for disciplinary purposes. Only the board may take action to expel a student and to readmit the student. The principal shall keep records of expulsions in addition to the board's records.

When a student is recommended for expulsion by the board, the student shall be provided with:

1. Notice of the standard of conduct allegedly violated, acts the student is alleged to have committed and a summary of the evidence to be presented against the student;
2. The penalty, if any, which the principal has recommended in the charge and any other penalty to which the student may be subject;
3. A statement that the student has a right to a hearing, upon request, on the specified charges;
4. A description of the hearing procedures, along with procedures for appealing any decision rendered at the hearing;

CORPORAL PUNISHMENT

Corporal punishment is defined as the intentional physical punishment of a student and is prohibited. It includes the use of unreasonable or unnecessary physical force or physical contact made with the intent to harm or cause pain. No employee is prohibited from:

1. Using reasonable and necessary force, not designed or intended to cause pain, in order to accomplish any of the following:
 - To quell a disturbance or prevent an act that threatens physical harm to any person.
 - To obtain possession of a weapon or other dangerous object within a pupil's control.
 - For the purposes of self-defense or defense of others as provided for in Nebraska Statute 28-1409 and 1410.
 - For the protection of property as provided for in Nebraska Statute 28-1411.
 - To remove a disruptive pupil from class or any area of school premises or from school-sponsored activities off school premises.
 - To protect a student from the self-infliction of harm.
 - To protect the safety of others.
2. Using incidental, minor, or reasonable physical contact to maintain order and control.

Reasonable physical force should be commensurate with the circumstances of the situation. The following factors should be considered in using reasonable physical force for the reasons stated in this policy:

- a. The size and physical, mental, and psychological condition of the student;
- b. The nature of the student's behavior or misconduct provoking the use of physical force;
- c. The method used in applying the physical force.
- d. The extent and nature of resulting injury to the student, if any;
- e. The motivation of the school employee using physical force.

Upon request, the student's parents shall be given an explanation of the reasons for physical force.

It shall be the responsibility of the superintendent to develop administrative regulations regarding this policy.

STUDENT ACTIVITY ELIGIBILITY

Participation in school activities is a privilege. School activities provide the benefits of promoting additional interests and ability in the students during their school years and for their lifetime.

However, students who participate in extracurricular activities serve as ambassadors of the school district throughout the calendar year, whether away from school or at school. Students wanting to participate in school activities must meet the requirements set out by the school district for participation in the activity and must conduct themselves in accordance with student conduct policies.

Student activity events must be approved by the superintendent unless they involve unusual travel expense, in which case the board will take action. The events must not disrupt the education program or other school district operations.

Eligibility requirements as published by the Nebraska School Activities Association (NSAA) shall be observed by all students. Additional eligibility requirements may be imposed by the school district at the board's discretion.

Such eligibility requirements shall include good citizenship, acceptable academic standing, parental permission and good health (sports only). All eligibility requirements shall be published in applicable student/parent handbooks.

Any student who is sanctioned or is found by the school district or NSAA to be ineligible to participate in any extra curricular activity may appeal the sanction or finding in accordance with the student due process policy.

It shall be the responsibility of the superintendent to develop administrative regulations for each school activity.

STUDENT ORGANIZATIONS

Secondary school student-initiated, noncurriculum-related groups and student curriculum-related groups, upon receiving permission from the principal, may use school facilities for group meetings during non-instructional time.

Non-instructional time shall mean any time before the first period of the day and after the last period of the day in which any student attends class. Meetings shall not interfere with the orderly conduct of the education program or other school district operations. It shall be within the discretion of the principal to determine whether the meetings will interfere with the orderly conduct of the education program or other school district operations. Activities relating to and part of the education program shall have priority over the activities of another organization.

Curriculum-Related Organizations

It shall also be the responsibility of the principal to determine whether a student group is curriculum-related. One or more of the following questions will be answered affirmatively if the group is curriculum-related:

- Is the subject matter of the group actually taught in a regularly offered course?
- Will the subject matter of the group soon be taught in a regularly offered course?
- Does the subject matter of the group concern the body of courses as a whole?
- Is participation in the group required for a particular course?
- Does participation in the group result in academic credit?

Secondary school curriculum-related student organizations may use the school district facilities for meetings and other purposes before and after the instructional school day. Employees shall be assigned to monitor approved meetings and may interact with curriculum-related organizations.

Noncurriculum-Related Organizations

Student-initiated, noncurriculum-related organizations shall be provided access to meeting space and school district facilities.

Only students may attend and participate in meetings of noncurriculum-related groups. Such attendance shall be strictly voluntary and student-initiated. As a means of determining whether a student's attendance is voluntary, the principal may require parental consent for the student to attend the meetings.

Members of the council are student representatives who have direct access to the administration.

Members of the student council are representatives elected from among the eligible members of each class. Council officers will be elected by a vote of the council members.

The principal, in conjunction with the students and certified employees, shall set forth the guidelines for the student government's elections, operations, and other elements of the government.

STUDENT PERFORMANCES

Students, as part of the education program, may participate in contests or other public and private events approved by the principal that will be of benefit to the student and the education program. Performance at such events is a privilege.

Students, who perform at such events, serve as ambassadors of the school district and must conduct themselves in the same manner as required in the regular school day. Students who fail to abide by this policy and the administrative regulations supporting it may be subject to disciplinary measures.

Students will be allowed to perform in these events only with proper permission and supervision and when the events do not disrupt the education program or other school district operations. The events must be approved by the superintendent, unless it involves unusual travel and expense, in which case the board must approve of the performance.

It shall be the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy. In developing the administrative regulations, these guidelines should be followed:

- Performances by student groups below the high school level should be allowed on a limited basis;
- All groups of students should have an opportunity to participate; and,
- Extensive travel by one group of students should be discouraged.
- Students will not accept payment for public performances when they represent their schools, either as individuals or as members of some school group.

It shall be within the discretion of the superintendent to determine whether the event will benefit the education program and the participating students. Contests or other performances by students unapproved by the superintendent shall be the responsibility of the parent and the student.

STUDENT ACTIVITIES FUNDS

The Student Activities Funds of each school will include athletic and student organization funds and any other funds belonging to any student or class group or activity. Student Activity Funds are those funds raised or collected by and/or for school-approved student groups, and may include gate receipts and student activity card fees. Student activity funds will be collected and expended for the purpose of supporting the school's extracurricular activities program. Student body representation should be encouraged whenever possible.

Monies raised by students through student body organizations, receipts from activity tickets and gate receipts, are subject to the control and management by the school board.

The principal of each school is responsible for all school/student accounts and accommodation funds. The principal will assign one or more school staff member(s) who are designated as an assistant treasurer by the school board to share the responsibility for assuring that accounting records are maintained in accordance with district guidelines.

The principal will be responsible for supervising the accounting functions to be performed at the building level. The building level accounting procedures will be consistent with the accounting functions performed at the district office level.

Secondary schools may establish bank demand and savings accounts in institutions that have been designated as depositories of school district funds by the school board. Materials and equipment purchased by student activity funds become district property. Projects for raising student activity funds should in general contribute to the educational experience of students and should not conflict with, but add to the instructional program and comply with district guidelines.

Any unencumbered class or activity funds will automatically revert to the general activity fund of the school when a class graduates or an activity is discontinued.

The district treasurer, or designee, may request all necessary financial information needed for review or required by the school board. These funds shall be examined annually as part of the district audit.

STUDENT HEALTH AND IMMUNIZATION CHECKUPS

Students enrolling in kindergarten (or the beginning grade) and students entering the seventh grade in the school district shall have a physical examination by a licensed physician and provide proof of such an examination to the school district. A physical examination and proof of such an examination shall be required by the administration for students in other grades transferring to the school district from out of state.

A certificate of health stating the results of a physical examination and signed by the physician, assistant physician or registered nurse shall be on file at the attendance center.

Students enrolling in the school district shall also submit proof of immunization against measles, mumps, rubella, poliomyelitis, diphtheria, pertussis, tetanus, hepatitis B, and chicken pox (varicella) as required by law. The student may be admitted conditionally to the attendance center if the student has not yet completed the immunization process but is in the process of doing so. Failure to meet the immunization requirement will be grounds for suspension, expulsion or denial of admission.

Exemptions or temporary waivers from the immunization requirement in this policy will be allowed only for medical, military or religious reasons recognized under the law.

During the first quarter of each school year the district will provide for inspections of all students for defective sight and hearing, dental defects and any other conditions as specified by the Department of Health and Human Services. Parents will be promptly notified of any condition requiring professional attention. ADMINISTRATION OF MEDICATION TO STUDENTS

Students may be required to take medication during the school day. The district shall establish procedures which may allow students to self-administer medications for diabetes and asthma/anaphylaxis. Other medications shall be administered by the school nurse, a registered Medication Aide, or other school staff member meeting the minimum competency standards for the Medication Aide Act.

Self-Management of Diabetes and Asthma/Anaphylaxis

Upon completion of required procedures, the district and parent or guardian, in consultation with the student's physician, will develop a diabetes or asthma/anaphylaxis medical management plan for the current school year. The plan shall:

1. Identify the health care services the student may receive at the school relating to the condition;
2. Evaluate the student's understanding of and ability to self-manage his/her condition;
3. Permit regular monitoring of the student's self-management of his/her condition by an appropriately credentialed health care professional; and
4. Be signed by the student's parent or guardian and the physician responsible for treatment of the student's condition.

For asthma/anaphylaxis the plan will also:

1. Include the name, purpose, and dosage of the prescription medication prescribed for such student; and
2. Include procedures for storage and access to backup supplies of such prescription medication.

The parent or guardian shall sign a statement that:

1. The district and its employees and agents are not liable for any injury or death arising from a student's self-management of his/her condition; and
2. Shall indemnify and hold harmless the district and its employees and agents against a claim arising from a student's self-management of his/her condition.
3. Any injury to others as a result of the student's self-medication shall be the parents' responsibility

The student shall promptly notify the person designated in the student's self-management plan when the student has self-medicated.

The superintendent shall develop all necessary procedures and forms to implement the self-management plans and student disciplinary procedures regarding the misuse or threatened misuse of medications and supplies. The school will promptly notify the parent/guardian of such disciplinary action.

Medication for Conditions other than Diabetes or Asthma/Anaphylaxis

Medication will not be administered without written authorization that is signed and dated from the parent and physician, and the medication must be in the original container which is labeled by the pharmacy or the manufacturer with the name of the child, name of the medication, the time of the day which it is to be given, the dosage and the duration.

Written authorization will also be secured when the parent requests student co-administration of medication for other than diabetes or asthma/anaphylaxis when competency is demonstrated. When administration of the medication requires ongoing professional health judgment, an individual health plan will be developed by the licensed health personnel with the student and the student's parents.

A written record of the administration of medication procedure must be kept for each child receiving any medication including the date; student's name; prescriber or person authorizing the administration; the medication and its dosage; the name, signature and title of the person administering the medication; and the time and method of administration and any unusual circumstances, actions or omissions. Administration of medication records shall be kept confidential.

Records shall be available to the Department of Health and Human Services Regulation and Licensure, the Department of Health and Human Services, and the State Department of Education for inspection and copying.

Medication will be kept in a secured area. Students may carry medication only with the approval of the parents and building principal of the student's attendance center. Emergency protocol for medication-related reactions will be in place.

The superintendent shall be responsible, in conjunction with the school nurse or Medication Aide, for developing rules and regulations governing the administration of prescription and nonprescription medication to students, including emergency protocols, and for ensuring persons administering medication have met the requirement of state statutes. Annually, each student shall be provided with the requirements for administration of medication at school.
