

## **Topic Name: District Competitiveness**

**Idea Title: I think that we need to attempt to keep up.**

Idea Detail: I feel that it is important for our school district to offer facilities comparable to other districts.

In going to other events at other schools in our conference you do not have to look too hard to notice that our facilities are behind and need updated.

I believe that we need to encourage our students to finish their High School careers in our district. Some are being drawn away to area schools that offer programs or facilities that we do not have.

If we are not willing to support future generations then we are in a sad state in my opinion.

**Idea Title: We need to have adequate facilities.**

Idea Detail: Currently our district cannot host several activities due to lack of facilities. These include sporting events (primarily track meets, but also events where the schedule conflicts with existing games/activities) as well as fine arts (district and MUDECAS competitions) and possibly even academic events.

The inability to host events means our kids never have the home advantage, groups lose out on revenue from concessions, and we always have to travel to participate which means higher transportation costs. If you can't show off your school, how do you gain any sense of school pride?

Idea Author: Susan H

Number of Seconds 0

Number of Comments 1

Comment 1: I absolutely agree with this. I think that we should have the facilities similar to other schools our size and be able to provide adequate facilities for things like track and be able to host competitions like music contests, speech contests, One Act play contests, Quiz Bowls, etc. | By Diana P

**Idea Title: LPS is heading our way, time to move forward is now.**

Idea Detail: Front page of Lincoln Journal Star today, 7/8/2014.

LPS is going to buy land for middle school at 84th and Yankee hill. Also YMCA and possible other sports facilities on site.

I think that Bennet/Palmyra needs to move forward now with new facilities.

LPS plans on having a new middle school ready by 2017 that can handle 850 students. Also a 55,000 square foot YMCA. This will in my opinion drastically effect enrollment to our district.

The distance to this LPS school is not much further for most and for many closer than Palmyra. If our school district/community do not step up and provide a reason, such as expanded class rooms and athletic facilities I do believe we have a lot to lose.

We need to act now to maintain our school district.

**Idea Title: We need a track and football field in this bond issue.**

Idea Detail: We need better facilities and that includes the track and football field. There has been a lot of talk regarding the football field and there is no doubt that we need a new one, but as Aaron H. pointed out we also have 38 kids out for track and we don't even have a track. What we call a track is dangerous and it is unrealistic to even call it a track. There are so many things we can't practice or can't practice well with what we have, so how do we expect the kids to be competitive. We are spending time and money busing our kids elsewhere to practice but this is limited in scope and they lose valuable practice time. As with all aspects of the bond, if we want our kids to compete, we must give them the tools necessary to do so. The track and football field need to be included in this bond issue.

**Idea Title: We need to focus on our peer institutions**

Idea Detail: In my opinion we shouldn't be worrying about Syracuse or Norris or Waverly. We need to keep up with the "joneses" of ecnc and mudecas. If we are losing to the bigger districts then good riddance to those who leave. You should be here because you like the school, communities, and rural atmosphere.

Idea Author: Dan C

Number of Seconds 0

Number of Points 1

Number of Comments 1

Comment 1: I do not think this is trying to keep up with the "joneses" at all. If that is the case that race was lost 20 to 30 years ago. It is a opportunity to give the kids in the community a fair shot and equal facilities. And maybe even the potential of drawing in some students to our

school system. And keeping some of the AWESOME staff that we have that may be tempted to leave because of other opportunities. | By James W

## **Topic Name: Community Input**

### **Idea Title: YES, it's time to move forward**

Idea Detail: It's time to let the families of District OR 1 know we are looking to the future for our kids! I fear a delay in this process will only cause more doubt in the parents as they look at where our schools are headed. If we don't want parents to look at opting out of our schools system we need to look ahead and move forward before we lose them!

Number of Points 16

Number of Comments 1

Comment 1: No i don't think it is sufficient time. | By Cookie L

**Idea Title: No. There is not sufficient time before the deadline.**

Idea Detail: There needs to be more information available for dissemination to the public regarding definitive costs of all options for all 3 sites. There also needs more discussion regarding possible necessary infrastructure changes that cannot be controlled by this bond issue. These ideas look to be a good start but are not nearly well enough fleshed out to get my vote on any, much less all sites. Whenever they do go up for election they need to be individual elections for each site rather than lumped together.

Idea Author: Dan C

Number of Seconds 0

Number of Points 3

Number of Comments 0

**Idea Title: No, there needs to be extensive detail on all costs.**

Idea Detail: There needs to be extensive detail and discussion of the annual budget and how it is created and implemented and how it will interface with the potential bond. There must be better understanding of how the student population is changing; I would like to see the history of each class over time and how many started in OR-1 and how they dropped out along the way and when, and if known, why. More renovation options with fewer components need to be addressed. There is simply too much here to discuss before making another quick decision to hold a bond election. No way the Architect could make a good cost estimate if we cannot decide the proposed program without a lot of additional meetings.

Idea Author: Jim S

Number of Seconds 0

Number of Comments 1

Comment 1: I may be incorrect but I think many of these issues were discussed prior to the last bond attempt. Much of that information is available I believe, if you really want to see it. I think our superintendent could provide it to you.

Why do we have a board of Education if the community needs to discuss the annual budget?? I thought that is why we elect people to be on the board that we can trust.

And I believe most qualified Architects are pretty accurate at cost estimates. I think they tend to try to provide a worst case estimate to help prevent shortfalls. | By James W

**Idea Title: No.**

Idea Detail: n The Board needs to come up with a proposal that will satisfy the needs and concerns of both communities. The proposal needs to consider all aspects of the bond issue in a clear and concise manner and a timetable for completion. In the previous attempt, questions went unanswered which led to a lot of animosity between the two communities. This was unfortunate and in the end, the bond issue failed.

Idea Author: Sandy P

Number of Seconds 0

Number of Comments 1

Comment 1: What 2 communities?? I thought this was a district?? Seems like alot of people are drawing lines and making it a personal issue? Should be the kids we are thinking of not so much the communities in my opinion. Also I think that a lot of the unanswered questions where never asked, or the answers that where given not heard. | By James W

**Topic Name: Bennet Elementary Ideas**

**Idea Title: Like the flex rooms**

Idea Detail: I like the idea of combining the facilities into one and building in the flex rooms so that the school can adjust as classes increase/decrease. With the limited space around the property the plans seemed well thought through.

Comment 1: I like the idea of the floor plan to Bennet Elementary. What would happen to the pre-k building once the additions have been to the school. could that be made for more parking? | By Cookie L

## **Topic Name: Outdoor Athletic/Activity Space**

### **Idea Title: The Football Field is Past it's Prime**

Idea Detail: Now! After the last school bond failed the most common theme heard from the public seemed to be that people wanted to 'keep the schools in the towns'. I admire the school board and Mr. Hanger for looking at options within the towns to meet these wishes. As Aaron H. shared in the above comments there is a REAL need for outdoor facilities. Unfortunately, the field can no longer keep up with the activities of today's school activities: Football (Varsity, JV, Junior High) daily practice and games, midget football games, Marching Band, PE classes, Track and Field (High School and Junior High), etc. It's time to tell our kids we believe in them and want them to have safe facilities they can be proud to call their own.

Idea Author: Janel C

Number of Seconds 0

Number of Points 18

Number of Comments 1

Comment 1: I agree. There are many people, I am one of them, who feel a new facility may be necessary - whether it is in one of the towns or not. But, if we can't come to a consensus on that, then I think at the very least we need major updates. The track and football fields being one of them. I attended a school of similar size in the mid 90's. And the facilities at that school back then were more updated and adequate than at our district now?? I don't see the need to debate - we are outdated in a major way. Our kids shouldn't be having to travel to other schools to have adequate practice facilities. Let's help them shine close to home. | By Kirsten M

### **Idea Title: The board was thinking out of the box**

Idea Detail: I most like when all facilities are together, however, in light of space at existing and opposition to a new site for the school, I congratulate the board and whomever else contributed to the idea of the land north of the Park for athletic fields. Its not far from school, has adequate space for track, football, parking, restrooms/concessions, and expansion for ball field/playground.

I think if this comes to be, we need to pursue a light on highway at that intersection to handle traffic. Currently, traffic seems to split between the east and west entrances to Hwy. 2 and I think this would force alot to the west one (by Caseys) - and it is a dangerous intersection to

begin with.

Idea Author: Susan H

Number of Seconds 0

Number of Points 8

Number of Comments 0

**Idea Title: Yes and now**

Idea Detail: I think that the new site is better than the 190th site location. They severely need a new football field and track. My concern here is if this is where they will play games don't you think we need locker rooms there too? Does the building that houses the concessions have restrooms. That is something that should be on site. I personally think that a new high school with new facilities would be the better option here but for some reason that hasn't even been put in the options to pick from.

Idea Author: Laura K

Number of Seconds 0

Number of Comments 1

Comment 1: I agree that the board was thinking out of the box when they bought the 15 acres north of the park. I was all for keeping it in one of the towns. On the other hand I also agree with not having the option to choose for it having the high school with new facilities out there also. In my opinion if new facilities, new school would be the way to go. The locker rooms would be within walking distance of the facilities they would play their sports at just like now. Then turn the old school into administrative stuff for the board and Mr. Hanger etc. That is what bigger districts have done. | By Cookie L

**Idea Title: No, the football field is adequate for this size school**

Idea Detail: The number of students out for track is small; it won't increase with a new track. This is a huge investment that cannot be justified for a few students.

Idea Author: Jim S

Number of Seconds 0

Number of Comments 4

Comment 1: I went to a C-1 school that I think now is a C-2 school. We had a proper track that we could have major track meets at and we also had a practice football field. That was in the late 80's and early 90's. Why hasn't this school upgraded their facilities to what everybody else in the state of Nebraska has and has had for years? This town and school will die if you don't provide the facilities that they have needed for decades. The school will not expand and will lose students without the changes being done. | By Laura K

Comment 2: The 2014 track team saw its highest numbers this year with 38 participants. For a C-2 school this is good and with the increase over the last couple of years it looks promising for those numbers to maintain or increase. The school also qualified 8 individuals for the State Track meet. With participation like this the Board would be well within their boundaries to support a new track facility. This year the team on at least 3 occasions traveled to Adams and Tecumseh to use their track facilities so that they could work on a surface that contained marked lanes, exchange zones and to establish times. Not to mention running on a surface that they see at every meet. On these occasions the team had to factor in travel time which cut into their practice time. It wasn't the best situation, but one that was needed given the state of the current track and the caliber of athletes that were competing. This could not be done accurately with the crushed rock surface that exists at the school currently. The school/team also misses out on hosting events like ECNC Track and having at least one home meet in which to compete. It's tough being on the road all the time.

| By Aaron H

Comment 3: The past 2 years some much needed work has been put into fixing the current football field. Every year by the middle of the high school football season the field has been reduced to a bare hard surface of dirt down the middle. Much of this is due to the extreme wear the field receives prior to the start of any contest in the fall. High school football practices start around the first part of August in which they get to enjoy the full grassy surface. By the third week of August the junior high football teams start practice which puts additional athletes and practice time on the field. At this time the first home football game is ready to be hosted and the field has seen extensive wear. Around the first of September the band is beginning their practices for contests and use the field in the morning and during class periods throughout the day. During the month of September the local Midget football team begins their season and games on Sunday, continued..... At the beginning of school through October the PE classes also use the field as a means to escape the warm conditions of the lack of air conditioning in the gym to have their classes. Not to mention there are also roughly 4 home JV football games and 3-4 home Junior High football games. This current field takes on a ton of traffic and can't survive the wear and tear on a weekly basis and still maintain a grassy surface in which to play. The current maintenance that took place this last spring and summer will help, but will struggle to keep pace with the foot traffic it receives.

| By Aaron H

Comment 4: How many students will justify this investment? Now we have to take the students to other school districts just to time and qualify for track events. This is a added cost and possible SAFETY issue busing them. Invest in the FUTURE of the KIDS. | By James W

**Idea Title: Football Field**

Idea Detail: The idea of a new football field is a great addition to the bond on the land north of the Palmyra Park. The traffic the current field receives during a school year exceeds what it can handle. As the school year begins the Varsity and JV football teams begin practice roughly the first week of August. With the updates to the field this spring and summer the field is in great shape as the teams take the field to practice. Just after school starts the junior high team takes the field for practice along with the JV and Varsity. This is the start of the field destruction. Around the first of September the band takes the field in the morning and during class periods of school to practice their marching routine. This adds foot traffic is specific areas on a daily basis that wears paths in the grass. As school begins until roughly October the PE classes use the field for activities and to get relief from the lack of air conditioning in the current gym. Continued.....

Idea Author: Aaron H

Number of Seconds 0

Number of Comments 0

**Idea Title: Football Field continued**

Idea Detail: Continued.....The last week of August sees the varsity team take the field for contests. With 3 weeks of practice and other activities on the field it is showing signs of wear. The JV and JH teams also play once a week at this point. On Sunday's the Midget football team starts up games in September and October. This puts 4 contests on the field in a 7 day week not including the practice of 3 teams, band and PE classes. If we are to do it right the first time, supporting a track and football field is the right step to take.

## **Topic Name: Palmyra High School Ideas**

### **Idea Title: Plan C gets my vote**

Idea Detail: Plan C gets rid of the problematic 1930's building, doesn't interfere with streets or have as much impact on existing parking/drainage on east side of building. I like the additional parking on south for events and the entrance on west for activities.

Idea Author: Susan H

Number of Seconds 0

Number of Points 17

Number of Comments 2

Comment 1: Plan C gets my vote also. It is the most common ground out of all them. I think everyone is getting something they wanted with the new school with plan c. | By Cookie L

Comment 2: I would agree. Plan C gets my vote also.

It makes no sense in trying to get a 1930's building up to modern codes. It would be a waste of time and money and still would be a 1930's structure that is way outdated. | By James W

### **Idea Title: You need to develop a plan without a second gymnasium.**

Idea Detail: As a minimum you need to show the chart developed to "prove" the need for the second gym. So far, I'm not buying. I think it will be a waste of money since the high school numbers are not growing. It doesn't look like you need much classroom space, since not much is added on any of the options. A simple expansion at the entry to pump up security and maybe add a couple rooms appears all that is really needed.

Idea Author: Jim S

Number of Seconds 0

Number of Comments 7

Comment 1: I think that anyone who believes we don't need more gym space should take over the scheduling of the gym. We have Varsity, JV and Jr. High of multiple sports going on all at the same time. Kids are practicing late at night or early in the morning. We also have rec teams for basketball, volleyball and wrestling for our 1st through 6th graders that are fighting

for the space. If we don't have kids in these rec leagues getting practice and playing time then when it comes time for them to compete in Jr. High they will be way behind the other schools and won't be competitive. We will lose those kids if we can't get them gym time. | By Cory C

Comment 2: I think the architect did a more than adequate job of showing us the huge need for a second gym. I myself would rather not see my child, when they do get to high school, practicing at 9:00 pm at night when they should be studying. Also, I am all for getting the events that we do not get because we do not have the proper facilities. So it is a waste of time to develop a plan without the second gymnasium in my opinion. | By Laura K

Comment 3: I agree a new gym is greatly needed! Having a student going to practices at 6:00am is tough. It would be nice to be able to spread practices out in the afternoon if possible. | By Lisa P

Comment 4: I think the addition of a second gymnasium is crucial in the planning of this new bond. The amount of activities that the district has the opportunity to host (ECNC, MUDECAS, NSAA Districts) and loses out on due to inadequate seating and space is unfair to the students, sponsors and school in general. Not to mention the reduced practice time each activity has had to endure due to the sharing of one gym. The current gym has seen its better days and is visually an eye sore with peeling/falling paint from the ceiling, old wood bleachers with limited seating/handicap accessibility and the lack of air conditioning for PE classes, practices, home contests, graduation, school and alumni banquets to name a few. The good thing about a new gym is that it would benefit many school organizations and not just athletics. | By Aaron H

Comment 5: My first reaction was the same as yours. We are told teenagers need sleep but yet we get them up at 6 AM for early morning practices. A second gym is definitely needed. | By Robin M

Comment 6: ffgggg | By Cory W

Comment 7: Have you had to get your 7th grade students to school by 6:00 am for practices. They have to go in early because not enough gym space for all of the grades to practice. If you look at the entry level class numbers, K-6th. They have been growing and will continue to do so. Are we going to sit by idle and wait for them to get to high school and go OH! We need more space and then do a knee jerk reaction?? Why not plan ahead and give the KIDS and community a fair chance at nice facilities and education. | By James W

**Idea Title: Second Gymnasium**

Idea Detail: I think the addition of a second gymnasium is crucial in the planning of this new bond. The amount of activities that the district has the opportunity to host (ECNC, MUDECAS,

NSAA Districts) and loses out on due to inadequate seating and space is unfair to the students, sponsors and school in general. Not to mention the reduced practice time each activity has had to endure due to the sharing of one gym. The current gym has seen its better days and is visually an eye sore with peeling/falling paint from the ceiling, old wood bleachers with limited seating and handicap accessibility and the lack of air conditioning for PE classes, practices, home contests, graduation, school and alumni banquets to name a few. The good thing about a new gym is that it would benefit many school organizations and not just athletics.

Idea Author: Aaron H

**Idea Title: A Second Gymnasium**

Idea Detail: The condition of the current gymnasium is less to be desired. The falling paint from the ceiling, old wood bleachers, lack of air conditioning, and lack of space to host practices, ECNC, MUDECAS and NSAA District events is unfair to our students and athletes. The addition of a new competition gym brings all these back into play and allows our student athletes to participate at home rather than being the away team for many of these events. Currently 5 teams/activities fight over practice time during the winter basketball, wrestling and play production season. The Bennet gym alleviates some of these issues, but sometimes adds conflicts to the activities that the Bennet gym already has scheduled. Some teams have been forced to practice at 6am in the morning during the week to get their share of practice time. A remodel of the current of the current gym doesn't solve any issues. A serious look at a new competition gym is warranted.
