Family Consumer Science

All of our junior high students get a chance to sample various Career Technical Classes, mostly hands on classes where students learn how to create a product from idea, design, step by step instruction, production to completion. In the following picture, two 8th grade boys, budding chefs Tanner Bennett and Riley Vachal work with their class to produce "cake pops" for the last regular schedule varsity basketball home game. Please note the way cool hairnets.

Tutoring will be offered at the Palmyra High School Library on Tuesday and Thursday from 3:45 to 4:30 pm.

On Thursday afternoon, Cameron Morrison, admissions counselor came to speak with interested students about Northwest Missouri State University in Maryville, MO.

Every full-time student receives a laptop computer to use throughout the school year. Northwest offers a textbook rental program through which students pay just \$6 per credit hour for their textbooks and save thousands of dollars when compared to peers at other institutions.

Northwest advocates for profession-based experience in every area of study. At Northwest's Horace Mann Laboratory School, students majoring in education begin observing and practicing in the teaching profession immediately.

Other profession-based experiences include work at Northwest's R.T. Wright Farm, radio and television stations, and a variety of internships.

Northwest has about 7,800 students. This size of campus offers opportunities for students to succeed socially as well as academically. With a student to teacher ratio of 20 to 1, you never feel like a number and receive personalized attention from faculty.
